

When beauty can not be described in words

Fujifilm's Fujicolor Crystal Archive Paper Supreme High Definition is a premium paper, specially designed for the demanding semi-professional photographer.

The colour range is wider and the thickness is higher in Fujicolor Crystal Archive Supreme High Definition, compared to Supreme paper. It is provided with a thicker base and smooth high gloss finish and is recognized by its attractive golden back print.

What you'll love about it: It reproduces Earth's colours as if you are walking in that forest again. All varieties of gold, yellow and red in the most spectacular way imaginable.

Its exceptional high quality will set new standards when used at professional photo shoots or for commercial purposes and it will make your work stand out and surpasses your clients' wishes.
